Program aims

This is a generalist and collaborative program offered by the Open Access College and the Faculty of Health, Engineering and Sciences. The first four courses provide students with the necessary skills and knowledge that are essential for success at the university level of study. The remaining courses from the Faculty of Health, Engineering and Sciences provide foundation science knowledge and skills in the series of four science courses studied.

Program objectives

On the successful completion of the Diploma of Science Foundations graduates will have:

- demonstrated an ability to successfully study foundation science courses
- acquired sufficient knowledge about foundation science and science programs of study to make an

There is no specified minimum educational achievement entrance standard.

Normally, to be eligible for enrolment in the program a person will have attained an age of at least 18 years in the year of the proposed enrolment.

Students will need to complete the online application form for entry to the Diploma Programs. All applicants are required to complete online diagnostic tests in Mathematics, e-literacy, and English Communication Skills. Applicants will then be given advice detailing whether the Diploma Program is the most appropriate pathway for them to undertake. Some students may be advised to undertake the [Tertiary Preparation Pathway](#) .

All students are required to satisfy the applicable [English language requirements](#).

If students do not meet the English language requirements they may apply to study a University-approved [English language program](#). On successful completion of the English language program, students may be admitted to an award program.

Program fees

Commonwealth supported place

A Commonwealth supported place is where the Australian Government makes a contribution towards the cost of a students' higher education and students pay a [student contribution amount](#), which varies depending on the courses undertaken. Students are able to calculate the fees for a particular course via the [Course Fee Schedules](#).

Commonwealth Supported students may be eligible to defer their fees through a Government loan called [HECS-HELP](#).

Domestic full fee paying place

Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. Students are able to calculate the fees for a particular course via the [Course Fee Schedule](#)

Domestic full fee paying students may be eligible to defer their fees through a Government loan called [FEE-HELP](#) provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian **Visa holders**, ~~Pa~~ Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for [FEE-Help](#).

International full fee paying place

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, external or online. Students are able to calculate the fees for a particular course via the [Course Fee Schedules](#).

Program structure

This Program consists of four core courses followed by four courses of foundation studies in science. Students must successfully complete the four compulsory core courses before they will be enrolled in the four science courses of foundation studies.

Core courses

There are four compulsory courses:

- [DIP1000 E-Literacy for Contemporary Society](#)
- [DIP1001 Academic Writing for Science](#)
- [DIP1002 Strategies for Successful Study](#)
- [DIP1003 Essential Mathematics](#)

[DIP1000 E-Literacy for Contemporary Society](#) and [DIP1002 Strategies for Successful Study](#) are co-requisites: they must be studied together

For part-time students, the program must be studied over a period of 2 years, while full-time students pursuing full-time study can complete the program in 1 year.

Foundation studies in

After completing the four compulsory foundation courses*:

- [PSY1010 Foundation Psychology](#)
- [PSY1020 Foundation Psychology](#)
- [CSC1402](#)
- [CSC1401 Foundation Programming](#)
- [STA2300](#)
- [MAT1000 Mathematics Fundamentals](#)
- [BIO1101 Biology 1](#) [^] [§]
- [CHE1110 Chemistry 1](#) [^] [§]
- [PHY1104 Physics 1](#)
- [REN1201 Environmental Studies](#)
- [PHY1101 Astronomy 1](#)
- [BIO2103 Biology 2](#) [^]
- [CHE2120 Chemistry 2](#) [^]
- [PHY1911 Physics 2](#)
- [PHY1107 Astronomy 2](#)
- [CLI1110 Weather and Climate](#)
- [MAT1100 Foundation Mathematics](#)

[^] These courses have a compulsory residential school component.

[§] [BIO1101](#) and [CHE1110](#) are prerequisites of [BIO1102](#).

* The number of units of credited towards the work load of the program is shown in the .

Program completion requirements

To successfully complete the Diploma of Information Technology, students must successfully complete the four compulsory core courses, and also complete the elective courses.

Required time limits

Students have a maximum of 4 years to complete the program.

IT requirements

Students must have reliable access to a computer and internet connection to complete the four compulsory core courses.

For information technology requirements, see the [IT Requirements](#) page.

For information technology requirements, see the [IT Requirements](#) page.

Students undertake the program as a [DIP1000](#) and [DIP1000](#).

The recommended program of study is as follows:
